NO MAN IS STRONGER THAN

NO MAN IS STRONGER THAN HIS STOMACH.

Let the greatest athlete have dyapepsia and his muscles would soon fail. Physical strength is derived from food. If a man has insufficient food he lose strength. If he has no food he dies. Food is converted into nutrition through the stomach and bowels. It depends on the strength of the stomach to what extent food eaten is digested and assimilated. People can die of starvation who have abundant food to eat, when the stomach and its associate organs of digestion and nutrition do not perform their duty. Thus the stomach is really the vital organ of the body. If the stomach is "weak" the body will be weak also, because it is upon the stomach the body relies for its strength. And as the body considered as a whole, is made up of its several members and organs, so the weakness of the body is weak because it is ill-nourished that physical weakness will be found in all the organs—heart, liver, kidneys, etc. The liver will be torpid and inactive, giving rise to biliousness, loss of appetite, weak nerves, feeble or irregular action of heart, palpitation, dizziness, headache, backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For

backache and kindred disturbances and weaknesses.

Mr. Louis Pare, of Quebec, writes: "For years after my health began to fail, my head grew diazy, eyes pained me, and my stomach was sore all the time, while everything would est would seem to lie heavy like lead on my stomach. The doctors claimed that it was sympathetic trouble dan to dyspersia, and prescribed for me, and although I took their powders regularly set. I felt no better. My wife advised me to try Dr. Pierce's Golden Medical Discovery- and stop taking the doctor's medicine. She bought me a bottle and we soon found that I began to improve, so kept up the treatment. I took on flesh, my stomach became normal, the digestive organs worked perfectly and I soon began to look like a different person. I can never case to be grateful for what your medicine has done for me and I certainly give it highest praiss."

Don't be wheedled by a penny-grabbling dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good."

To gain knowledge of your own bods—

Dr. Fierce's medicines, recommended to 5 "just as good."

To gain knowledge of your own body-in sickness and health—send for the Poo-ple's Common Sense Medical Adviser. A book of 1008 pages. Send 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound copy. Address Dr. R. V. Pierce, 603 Main Street. Buffalo. N. Y.

CLEANLY WOMAN.

Erroneously Thinks by Scouring Her Scalp That She Cures Dandruff.

Cleanly woman has an erroneous idea Cleanly woman has an erroneous idea that by scouring the scalp, which removes the dandruff scales, she is curing the dandruff. She may wash her scalp every day, and yet have dandruff her life long, accompanied by falling hair, too. The only way in the world to cure dandruff is to kill the dandruff germ, and there is no hair preparation that will do that but Newbro's Herpicide. Herpicide by killing the dandruff germ, leaves the hair free to grow as healthy Nature Intended. Destroy the cause Nature intended. Destroy the cause you remove the effect. Kill the dandruff garm with Herpfelde. Sold by leading druggists. Bend 10c. in stamps for sample to The Herpfelds Co., Detroit, Mich.

[Entered at the Postoffice of Alexandria, Virginia, as second-class matter.]

Rain tell at Petersburg all day yesterday and last night it was still raining, with every indication of no abatement. and also in the stores and residences on River street between Third street rad the old market house. All of the mead-ows on the Chesterfield side of the river are submerged, and the crops on the low-lands along the river bave been covered or washed out. Reports received from Farmville and the upper counties are to the effect that the Appomattox river is rising and that it is still raining there. This volume of water will cause a still greater rise in the river. The tracks of the Atlantic Coast Line Railway at Jarretts, Va., are under water, and trains have to run very slowly in passing that point. In consequence of the embankment of this road just outside o. Petersburg, where work on the diversion of the Appomattox river is in progress, showing signs of weakening, all trains are run

around the belt line.

A great number of county bridges have been carried away by the freshet, and the loss by the unprecedented rainfall will be immense.

It is impossible to accurately estimate the damage to the general crops throughthe damage to the general crops through-out the Petersburg section by reason of the heavy and continuous rains during the month of August, but it will be up in the hundreds of thousands. The damage to the tobacco crop alone, it is said, will be over \$200,000, and the said, will be over \$200,000, and the injury to the peanut crop will be equally as large, if not greater. The core crop is seriously injured, and it is bulieved that \$100,000 will not cover the loss,

Estimated conservatively, the damage in Frederick county growing out of the present excessively wet weather and the violent rainstorms and cloudbursts that have deluged the Winchester section for the past six weeks, will reach fully \$50,000. At least one half of the peach crop, which is now being moved to the market, has been ruined by the rain. I housands of dollars' damage has resulted in the roads being washed, and farm lands have been inundated by floods and injured to a grest extent. In different parts of Winchester a dozen springs, from which pure water is bubbling, were found in the streets yesterday. They are due to the continued rains and floods. Alexandria Fertilizer and The cellars of many residences and businearly on a level with the sidewalks.

Bookbinders Suspended. The announcement that Public Printer

Stillings has suspended for 30 days, an employe of the bindery named Fred Schlick, renews interest in one of the most curious of the many difficulties that has beset the Public Printer since he took charge.

Schlick was suspended for "miscou duct," and his misconduct consisted in his interfering and viciously abusing a fellow workman in the bindery, who had aroused his wrath because he had done more work than Schlick thought was sufficient for one day.

The bookbinders in the governmen

printing office have bitterly resented a recent order from the acting foreman of the bindery, considerably increasing the amount of work which the bookbinders are expected to do each day. Their union has taken formal action and negotistions are now pending between representatives of the union and the Public Printer. Mr. Schlick, however, could not wait until the Public Printer and the union had settled the matter between the union has settled the matter between them. He remonstrated with a fellow-workman and when called upon to apol-ogize for the abusive language he had used he refused and was accordingly sus-

Another bookbinder, named Alvin Tanner, is also under suspension. Tanner refused to do the amount of work which Foreman Ashton ordered him to do. Tanner was immediately placed upon the pay roll of the union, so that he will receive from the union the same sum of money he would say if he ware at work money he would earn if he were at work.

Anti-dispensary Candidate Wins, The latest returns indicate that M. F. Ansley, the anti-dispensary candidate for governor of South Carolina, will have nearly a majority on one ballot over seven opponents. Lyon, the anti-dispensary attorney for attorney general, is elected on the first ballot. Senator Tillman was on the first ballot. Senator Tillman was scratched about 30 per cent., although without opposition. The legislature is in doubt, the House being largely anti-dispensary. All congressmen bave been nominated for re-election. J. T. Johnson, J. D. Patterson, W. Wyatt Alken and D. F. Finley were the only congressmen with formal opposition.

Nadinola The UNEQUALED BEAUTIFIER, and

sered by NATIONAL TOILET CO. Peris, Tong

Caught by the anchor of a balloon and whirled 500 feet in the air over the heads of 5,000 spectators, Mrs. Roper, of Brooklyn, was seriously but not fatally hurt yesterday at the Ulster County Fair at Ellenville, N. Y. A professional woman aeronaut, who has been making daily ascensions at the fair grounds in a hot-air balloon, had just entered the car The Appomattox river is rising steadily, and the freshet is the most severe experienced within the past ten years. Water is pouring into the first floors of the buildings off the wharves at Petersburg, caucht in the dress of a woman and she caught in the dress of a woman and she was whipped up into the air, screaming. As soon as the woman in the balloon caught sight of her involuntary fellowvoyager, swinging far below at the end of the rope, she at once pulled the safety cord. The balloon, which by that time had reached an altitude of 500 feet, quickly descended and reached ground a quarter of a mile from quarter of a mile from the point of acension. Mrs. Roper struck the ground beavily, and when picked up was found to be unconscious and to have sustained fractures of the shoulder, ankle and sev-
